Puppy Package: Everything Included with Your Puppy

- *Age-appropriate vaccinations, including protection against Distemper, Adenovirus types 1 and 2, Parainfluenza, and Parvo.*
- *Extra preventative vaccine towards Parvo at 5 and 7 Weeks of age (Neopar)*
- *Kennel club papers upon request only at buyer's experience (no breeding rights unless discussed beforehand)*
- ***Health guarantee of 1 to 9 years or a lifetime**, depending on which products you choose to keep the puppy on.*
- *Dewormed Correctly (Nemex2, Safeguard, Ivermectin) Treated for Heartworms, Tapeworms, Hookworms, Roundworms, & Whipworms*
- ***Early neurological stimulation:** every one of our puppies takes part in Bio Sensor stimulation exercises from 4 to 16 days old. Five benefits have been observed in canines exposed to these exercises: improved cardiovascular performance (heart rate), stronger heartbeats, stronger adrenal glands, more tolerance to stress, and greater resistance to disease.*
- *Pamphlets on Distemper, Parvo, Kennel Cough, Common Parasites, NuVet, and New Joint, plus Hypoglycemia (if purchasing teacups only).*
- *Micro-chipped **– Owner must register the chip within 30 days, or the health guarantee is null and void. We want our puppies to be found if they get lost.***
- ***ALL parents are DNA tested by Embark Vet** for over 200 hereditary and congenital issues that could be passed down to puppies. None of our parents are affected by any of these issues, so all of our puppies are clear of the conditions tested for. Results are posted under each parent's pictures for your convenience.*
- *Spayed/neutered (unless purchasing breeding rights or the puppy is too small).*
- *30 days of free pet insurance (if buyer has paid for AKC registration only).*
